CHANGES TO COLUMBIA PARKWAY AT THE TAFT AND TORRENCE INTERSECTION

The City of Cincinnati is changing the lane turning assignments and adjusting the traffic signal timing at the intersection of Columbia Parkway, Taft Road and Torrence Parkway. These changes will better serve traffic to and from the O'bryonville Neighborhood Business District as well as other nearby Communities in the City.

Specifically, beginning on Saturday, October 18, 2008, the following changes will be in effect:

- Traffic traveling southbound on Torrence Parkway will now be allowed to turn left onto eastbound Columbia Parkway from the left most approach lane. This left turn was previously restricted.
- Traffic traveling eastbound on Columbia Parkway will now be allowed to turn left onto Taft Road or Torrence Parkway. The left turn to Taft was previously restricted.
- Traffic traveling westbound on Columbia Parkway destined for Taft Road will now be required to make their turn from the second lane from the right. Prior to this change, traffic was turning onto Taft from the curb lane, sharing it with traffic turning right onto Torrence Parkway.
- Traffic traveling westbound on Columbia Parkway destined to Torrence Parkway will continue to make their right turn from the curb lane as before.

Appropriate signing at and in advance of the intersection will be present informing motorists of the proper travel lane, depending on their destination. Motorists should proceed with caution as all drivers adjust to these changes.
