Road Closure – Hillside Avenue at Henrietta

As part of the City's investment in the neighborhood of Riverside, the City of Cincinnati has contracted with Prus Construction Company to replace a storm culvert at the intersection of Hillside Avenue and Henrietta Avenue.

This project includes the installation of a new precast concrete culvert.

The project will start on September 8th of this year and is anticipated to be completed by early October.

Traffic delays are possible and motorists may wish to seek alternate routes. Hillside Avenue will be closed to through traffic starting September 9. Motorist traveling to Hillside Avenue from River Road will be detoured west on River Road to Anderson Ferry Road to east on Hillside Avenue. Local access will be maintained at all times.

Motorists are encouraged to help improve safety by reducing their speed and using caution when approaching the construction area.

This project is funded by the Stormwater Management Utility.
