TRAFFIC ALERT

LANE CLOSURE AND WEIGHT LIMIT REDUCTION **WALDVOGEL VIADUCT**

One lane of traffic will be closed in each direction on the Waldvogel Viaduct connecting the Sixth Street Expressway to Elberon Avenue and Warsaw Avenue in Price Hill. Access to and from Elberon and Warsaw will be maintained.

The weight limit on the Waldvogel Viaduct has also been reduced to 5 ton vehicles.

The lane closure and 5 ton weight limit are expected to last approximately two months. A structural deficiency discovered during the latest bridge inspection prompted the cautionary lane reduction and placement of the 5 ton vehicle weight limit. Repairs are being developed to reopen all lanes and restore the viaduct to its previously posted weight limit of 16 tons.

Drivers are encouraged to reduce their speed and use caution when approaching the closure area.
