Western Hills Viaduct Upper Deck Rehabilitation

The ramp to the lower deck of the Western Hills Viaduct from eastbound Harrison Avenue will be closed this Thursday and Friday, November 4th and 5th from 9:00 AM to 4:00 PM for construction work. The ramp will be open for morning and afternoon rush hours.

Crews will also be paving the southern half of the upper deck of the viaduct tomorrow and Thursday, November 3rd and 4th. Lane closures for this work will remain as they currently exist, with one lane open in each direction.

Beginning next Tuesday, November 9th and possibly going into the next week, one lane at a time will be closed on the upper deck of the viaduct for installation of expansion joint seals. At least one lane in each direction will be maintained at all times.

All work on the Western Hills Viaduct, with the possible exception of final line striping, will be completed by November 19th.

Drivers are encouraged to reduce their speed and use caution when approaching the construction area.
