

# The Good Gardener's Contract

As a new City of Cincinnati "Urban Gardening Pilot Program" Gardener I commit to:

- Maintaining and watering my garden
- Harvesting and enjoying the vegetables I grow
- Giving away or selling the extra produce to friends or community members
- Use organic growing methods whenever possible (not using chemical fertilizers or pesticides)
- Contributing to the evaluation process of the Urban Gardening Pilot Program
- Asking for help when you need it and seeking answers to your gardening questions.
