## ABOUT THE STREET REHAB PROGRAM

The City's Street Rehabilitation Program handles street resurfacing and significant curb repairs. This work includes grinding off the old roadway surface, resurfacing the pavement with new asphalt, and repairing/replacing curbs where necessary. Residents may notice that work is not continuous from start to finish on any given street, but includes breaks for an extended period while the contractor performs work on other roads. This is part of the scheduling to minimize costs. The job on a particular street is not complete until the pavement is fully replaced and a smooth driving surface is restored. Every community in the City of Cincinnati will be targeted for roadwork on a three-year rotation under the Street Rehab Program. The streets listed in this brochure are scheduled to be rehabilitated during the 2009 and 2010 construction seasons.

**Dear Cincinnati Resident,**

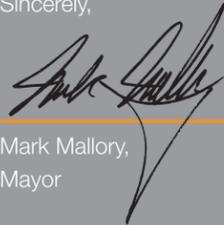

The Street Rehabilitation Program is one very important way that the City of Cincinnati is working to improve the quality of life in our neighborhoods. It is through this program that we continue to invest in our communities and make them safer by improving the quality of our street system.

The streets that are scheduled for rehabilitation under the 2009-10 Program are listed in this brochure. Every neighborhood will have the condition of its streets examined at least once every three years based on extensive evaluations by an outside consultant under the direction of city engineers. Streets are then selected for inclusion in the Program based on the results of this appraisal.

As the City undertakes the process of improving these streets, you may encounter raised manholes or uneven roadways until all work is completed. We ask for your patience, and request that you observe caution when driving on streets under construction. Once work is completed, we believe that you will be pleased with the results for years to come.

The Street Rehabilitation Program is just one more way that the City of Cincinnati provides valuable services that make a difference in our community.

Sincerely,

Mark Mallory,  
Mayor

Milton R. Dohoney Jr.,  
City Manager
