Impacts/Issues	Impacts/Issue Description	No Build	2 travel lanes w/ sharrows; parking on south side only	2 travel lanes w/ sharrows; parking on both sides 2 travel lanes & 2 bike lanes; parking on south side only	No Build	Rebuild Intersection	Rebuild Intersection	No Build	Rebuild Intersection	Rebuild Intersection
Traffic & Community Impacts	This includes primarily the impacts to the communities due to proposed roadway changes	None; Maintain existing 40-ft street with parking on both sides	Reduce street width to 36-ft; increase sidewalk width; 2 travel lanes w/ sharrows for bicyclists; parking on south side only	Maintain 40-ft width; 2 travel lanes w/ sharrows for bicyclists; parking both sides. Or 2 lanes with 2 bike lanes; parking on south side only	None; Maintain existing intersection and traffic signal	Rebuild intersection with new signal; eliminate islands; add longer WB turn lane; no Vandalia access	Rebuild intersection with new signal; eliminate islands; add longer WB turn lane; keep Vandalia access	None; Maintain existing intersection	Build slight Blue Rock Street realignment; add left turn lane on Spring Grove	Build curb realignment on Blue Rock Street; add left turn lane on Spring Grove
Environmental Justice	While the project will potentially affect various residential/commercial parcels, no one tract or environmental justice population bears disproportionate effects									
Parks & Recreation - Section 4(f)	The consideration of property that is publicly owned parks and recreation lands, cemeteries and historic properties	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts
Right-of-Way Impacts	The additional amount of ROW (in acres) necessary to meet ODOT standards per alternative	No potential impacts	No potential impacts	No potential impacts	No potential impacts	0.2 Acres	0.2 Acres	No potential impacts	0.2 Acres	No potential impacts
Potential Residential Relocations	The number of residential properties affected by each alternative	No potential impacts	0	0	No potential impacts	0	0	No potential impacts	0	0
Potential Commercial Relocations	The number of commercial properties affected by each alternative	No potential impacts	0	0	No potential impacts	0	0	No potential impacts	1	0
Cultural Resources	Those properties determined to be history/architecture sites requiring further study to determine eligibility for NRHP status	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts
Ecological Resources	Those ecological resources, including aquatic resources, terrestrial habitats and endangered and threatened species potentially impacted	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts
Hazardous Materials	Sites recommended for Phase 1 ESA	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts	No potential impacts
Utility Issues	Many utilities exist within the urban setting of the project study area and will most likely require typical, non-complicated modifications to accommodate the proposed improvements
