

Solutions

Dots	Lack of Permit Parking Comment
7	Residential permit parking - the program needs to change (for example: should include visitor passes)
1	Raise fees for the residential parking permit

Issues

Dots	Lack of Permit Parking Comment
0	Permenant residence has to be registered (issue for students)
0	Parking permits won't exist for employees of nearby businesses

Solutions

Dots	More Parking & Non-Auto Options Comment
6	Encourage owners to create more parking for tenants
5	Have different regulations for commercial vs. residential parking
4	Converting tree lawn to angled parking to provide more spaces (ex. Corry Ave is a potential street)
4	Paint lines on street to help with parallel parking and maximize spaces
3	Allow for tandem parking to count towards parking requirement in the Code and account for properly regulating this
3	Residential parking (as long as its behind building or conforming to district) should be able to be rented to nearby tenants
2	Subsidize transit and/or market it better
2	Is there a way for the City to encourage overflow parking into a development
1	Zip Cars should locate by the University
1	Write into the Overlay District language that a greater distance from public lot to the development is allowed (covenant process can be difficult)
0	How many parking spaces exist on and off campus? Get data from UC to help base our decisions off of this

Solutions

Dots	UC Employee / Student Parking Comment
5	Determine how much land is available to create more parking on campus
3	Assigned parking spots to employees
2	Don't allow freshmen to bring cars to campus

Issues

Dots	UC Employee / Student Parking Comment
3	Developments not providing enough parking
0	A lot of employees or students park in neighborhood
0	Increase of student and employee populations in recent years
