

NOTICE OF INVITATION TO BID

Reference No. **121C909060**

The City of Cincinnati is soliciting bids for the following:

CINCINNATI STREETCAR PROJECT

SCOPE OF SERVICES

The City of Cincinnati is constructing a 3.6 mile modern streetcar system linking the Cincinnati Central Riverfront (CBD) with the Over-the-Rhine (OTR) neighborhood. The Cincinnati Streetcar will construct a fixed rail, modern streetcar circulator extending throughout the Cincinnati CBD and OTR along a route extending from 2nd Street to Henry Street. The project will include the installation of approximately 3.6 miles of embedded single track on which a fleet of up to 5 modern streetcar vehicles will operate in mixed traffic in one direction serving 18 stops. The vehicles will be powered by an overhead contact system installed along the route.

The streetcar system also requires the construction of a Maintenance and Operations Facility (MOF) to store and perform light maintenance on streetcar vehicles as well as provide offices and operations amenities for streetcar system employees. The City has identified a location for the MOF in Over-the-Rhine on a site generally located on the eastern half of the property at 1927 Race Street at the northern end of the streetcar route. The project will be funded by a combination of federal and local funding and will be performed in compliance with Federal Transit Administration (FTA) rules and regulations.

Plans, specifications and bid documents are available in the Office of the City Purchasing Agent, Two Centennial Plaza, Suite 234, 805 Central Avenue, Cincinnati, Ohio, 45202-1947.

PLEASE NOTE: It is preferred that local vendors (within Hamilton County) pick up *construction bids* from the Office of the City Purchasing Agent.

Bids Available: 11/15/2012

Bids Due: **1/18/2013 at 12:00 PM ET**
