

- **The portion of Colerain Avenue in the study area is experiencing issues related to safety and congestion.**
- **Solutions to these issues should balance the needs of the motorists with the needs of local residents.**
- **The solution in terms of a long range and viable project must do the following:**
 - ***Improve safety in the study area by addressing conflicts at the intersections and between moving and parked vehicles, in addition to any key operational deficiencies in the study area.***
 - ***Reduce congestion by improving traffic flow.***
