

SHOWER PAN TEST

Instructions: Contractor may utilize the City of Cincinnati Plumbing Division to conduct an inspection of the shower liner **or** follow the procedures outlined below.

Upon completion of the shower liner system installation, required tests shall be conducted by the contractor's representative and witnessed by the property owner or the owner's representative. All leaks and/or defects shall be corrected and the system shall be re-tested prior to approval of the final inspection.

This certificate shall be filled out by the contractor's representative and signed by both the contractor's representative and the owner's representative. Insert "N/A" in all unused lines. Attach additional sheets, as necessary, to provide a complete record of the testing (i.e. for multiple showers). Copies of this test certificate shall be made available to the building department, health department, owner and contractor. It is understood that the signature of the owner's representative on this certificate in no way prejudices any claim against the contractor for faulty material, poor workmanship or failure to comply with the Ohio Plumbing Code and/or the conditions of this contract.

1. **Property Address** _____
2. **Owner or Owner's Representative** _____
