MOTION, submitted by Councilmember Dennard, WE MOVE that the City Administration explore the feasibility of banning public utility companies from charging reconnection or disconnection fees to customers who have their service interrupted due to non-payment. Public utilities are defined as organizations who provide electricity, gas, water or sewerage or broadband internet. We also ask City Administration to check on the feasibility of asking that Public Utilities companies would no longer be able to require a deposit for service for customers whose income is within 50% of the area median income for the City of Cincinnati. MOTION, submitted by Councilmembers Landsman and Seelbach, To grow the number of black-owned businesses, along with other MBEs, SBEs and WBEs in the City of Cincinnati, WE MOVE that the Administration prepare a report on the feasibility of consolidating support for these small businesses within the Department of Economic Inclusion (e.g. loan programs, technical assistance, etc.) There should be a single point of contact and centralized support for these critically important businesses. WE also MOVE that the Administration identify ways in which newer, less experienced MDBs, SBEs and WBEs can get the necessary experiences and opportunities by updating our contracting requirements. For example, what is the feasibility of requiring that certain city contracts partner with MBEs that need the requisite experience to participate in city contracts on their own? The goal of this motion is to better understand the opportunities to further grow and diversify our inclusion work so that more black-owned businesses and other MBEs, SBEs and WBEs especially newer successfully participating.
