Statement of Certification and Public Notification

In accordance with Federal Aviation Regulations Part 150, these maps and accompanying documentation are submitted as the Existing and Future Baseline Noise Exposure Maps for Cincinnati Municipal-Lunken Airport. To the best of my knowledge and belief, these maps were prepared with the best available information and on the basis of reasonable assumptions, are hereby certified as true, complete, and representative of future aircraft noise levels.

I also hereby certify that interested persons have been afforded adequate opportunity to submit their views, data, and comments concerning the Noise Compatibility Program and the accompanying description of aircraft operations. A copy of all written comments received during development of the maps is included in this document.
