Purpose:
Provide citizens information in police matters and take minor police reports by telephone, leaving field units available for other police tasks.

Policy:
Officers, regardless of their assignment, will record all facts and actions fairly and impartially when taking an incident report. Officers will provide the requested police service and will complete an accurate and thorough report.

Officers dispatched or on the scene of an incident requiring a police report or having personal contact with a citizen requiring a police report, regardless of the complaint, will make the report.

Emergency Communications Center (ECC) operators will refer qualifying report requests to the appropriate district. Generally, district/unit desk personnel will take reports from citizens who have responded to the district/unit, but any district officer can take a report over the phone or in person.

Before transferring a telephone complainant to a district desk officer, the ECC operator will advise the desk officer, a call is being transferred and the nature of the reported offense/incident.
