

Multi Family Pilot Obligations Overview

City of Cincinnati:

- Provide a locking recycling dumpster with once-a-week service and increase service or number of dumpsters if needed as budget allows.
- Provide feedback and status reports from Rumpke to property management on recycling dumpster use.

Hamilton County R3Source:

- Provide property management with educational materials and interior recycling bin for each unit interested in recycling who signs a pledge (see attached) to use it for recycling.
- Check in with the property manager via email monthly for first three months and quarterly after for the first year to address challenges.
- Provide an in-dumpster camera to monitor use and troubleshoot contamination issues. This is optional in case the property manager has privacy issues, but the camera will only record items placed in the dumpster.

Property Management:

- Provide a space for the recycling dumpster right next to a garbage dumpster.
- Distribute a two-question electronic survey (Hamilton County R3Source will provide) to each household asking if they want to recycle and number of people in their household.
- Have residents who want interior recycling bins sign pledge and then distribute the bin and educational flyers.
- Monitor recycling dumpster and report overflows so that service level needs can be addressed.
- Monitor garbage dumpsters and decrease service levels if able.
- Provide a copy of garbage dumpster bill at beginning of pilot year and then again at end of pilot year.
