For more information about the project, visit:

gunviolencememorialproject.org

The Gun Violence Memorial Project seeks to create a permanent, national memorial that honors the lives and narratives of victims of gun violence.

If you have lost an immediate family member to gun violence, we invite you to participate in this memorial by contributing a Remembrance Object in memory of your loved one. By sharing a Remembrance Object that honors someone you love, together we can highlight the human toll of gun violence and inspire visitors to connect with the individual stories.

Remembrance Objects can be anything that tell a story of your loved one. *Please select an object that is no larger than 9" L x 4.5" W x 3" H.*

Event hosted in partnership with:
