

MODIFYING Title XIV, “Zoning Code of the City of Cincinnati,” of the Cincinnati Municipal Code by AMENDING the provisions of Section 1405-03, “Specific Purposes of Multi-Family Subdistricts,” Section 1405-07, “Development Regulations,” Section 1407-07, “Development Regulations,” Section 1409-09, “Development Regulations,” Section 1410-07, “Development Regulations,” Section 1413-07, “Development Regulations,” and Section 1415-09, “Development Regulations,” to reduce or remove density limitations in certain zoning districts and thereby remove a barrier to the creation of housing within the city.

WHEREAS, in response to City Council’s desire to increase the supply and availability of housing that is affordable across a broad spectrum, the Administration has explored a number of strategies that would facilitate the production of housing in the city, which strategies are more particularly described in a March 16, 2021 report to the Council (item no. 202101105); and

WHEREAS, the Administration’s recommendations for increasing the housing supply include a recommendation to legislatively streamline housing production by, among other things, lifting density restrictions in certain targeted areas; and

WHEREAS, the Council hereby resolves to lift or reduce density restrictions in certain targeted areas to remove a barrier to the creation of housing in the city, consistent with its desire to increase the supply and availability of housing; and

WHEREAS, at its regularly scheduled meeting on _____, the City Planning Commission reviewed the proposed amendments to the zoning code and recommended their approval, finding them to be in the interest of the public’s health, safety, morals, and general welfare; and

WHEREAS, a committee of Council held a public hearing on the proposed text amendments following due and proper notice pursuant to Cincinnati Municipal Code Section 111-1, and the committee approved the proposed text amendments; and

WHEREAS, the text amendments are consistent with Plan Cincinnati (2012), including the “Live” goal to “provide a full spectrum of housing options, and improve housing quality and affordability” (p. 164); and

WHEREAS, the Council finds the proposed text amendments to be in the best interests of the City and the public’s health, safety, morals, and general welfare; now, therefore,

BE IT ORDAINED by the Council of the City of Cincinnati, State of Ohio:

Section 1. That Section 1405-03, “Specific Purposes of Multi-Family Subdistricts,” of the Cincinnati Municipal Code is hereby amended as follows:

§ 1405-03. - Specific Purposes of the Multi-Family Subdistricts.

The specific purposes of the RM Residential Multi-family subdistricts are to create, maintain and enhance neighborhood residential areas with multi-family housing that are typically located near the city's major arterials and characterized by a mix of attached housing, small and large multi-unit buildings and community facilities, where appropriate. Future development will be primarily residential in character, although some small-scale public and non-residential uses on the ground floor in a ~~mixed-use~~ ~~mixed-use~~ building on an arterial street may be allowed with specific limitations. Four RM District subdistricts are established:

- (a) *RMX Residential Mixed*. This subdistrict is intended to create, maintain and enhance areas of the city that have a mix of lot sizes and house types at moderate intensities (one to three dwelling units). Existing multi-family buildings of four or more units are acknowledged but new construction is not permitted.
- (b) *RM-2.0 Multi-family*. This subdistrict is intended to provide for a medium density mix of residential housing predominantly duplexes and multi-family on lots that have already been platted. The scale of buildings is generally similar to a large single-family home on a small lot. Where land is assembled, the same scale should be maintained. ~~The minimum land area for every dwelling unit is 2,000 square feet.~~
- (c) *RM-1.2 Multi-family*. This subdistrict is intended to provide for mixed residential uses at moderately high densities. This is an intense district with an urban character. ~~The minimum land area for every dwelling unit is 1,200 square feet.~~
- (d) *RM-0.7 Multi-family*. This subdistrict is the most intense residential district and it will normally consist of tall multi-family or condominium structures. The character is intended to be urban and should be used where high intensity residential is needed to provide a residential base for important commercial areas. ~~The minimum land area for every dwelling unit is 700 square feet.~~
