Definitions:

The Hamilton County Mental Health and Recovery Services Board define categories of risk for patients in care facilities as follows:

Category I is a high risk patient who is a minor or legal hold, who has exhibited specific evidence of dangerousness, such as a suicide plan, made a threat against a specific person, observed indiscriminate assaultive behavior, or a complete inability to care for self.

Category II is a moderate risk patient with inconclusive evidence of dangerousness. History may indicate a potential for aggression if provoked. May have a history of Absent Without Leave (AWOL) with no violent episodes.

Category III is a patient that has **not** exhibited evidence of dangerousness to self or others, and can care for self. Frequent AWOL abuser, self-return is anticipated.

The **Hamilton County Urban Search and Rescue Task Force (USAR)** is a special response unit trained to conduct searches for missing or lost persons that involve a large area search, a structure collapse or other natural or manmade disaster.

Ohio **Blue Alert** is a notification system intended to enlist public assistance in the event of a tragedy involving a critically injured or killed law enforcement officer where the suspect(s) are still at large, or in the event of a missing law enforcement officer. The criteria, established in Ohio Revised Code 5502.53, Statewide Blue Alert Program, must be met to initiate a Blue Alert.

Purpose:

Establish Department guidelines governing the reporting and investigation of missing persons.

To ensure all missing persons cases are investigated in a professional and timely manner and to resolve the cases as soon as possible by locating the missing person.

Policy:

Any responsible and competent adult whose whereabouts are unknown by choice will not be reported as missing.

Investigating officers are required to determine, based on the individual circumstances of each case and the age of the missing person, whether or not foul play and suspicious circumstances exist. Any further action will be determined based upon that investigation.

If any doubt exists, complete a Records Management System (RMS) Missing Person Report.

Information:

The Emergency Search for Missing or Endangered (ESME) program, developed by the Personal Crimes Squad, is an enhancement to the Department's initial response and investigation of missing person cases. This program assist officers in determining the appropriate resources and actions to best resolve the case from the moment a call is received at the Emergency Communications Center through the ultimate resolution.

The ESME program is based on national best practices and was developed using resources from the University of Cincinnati Police Institute, Association of Police Communications Officers, National Center for Missing and Exploited Children, Ohio Peace Officers Training Academy Curriculum and the Ohio Revised Code.

Procedure:**A. Classifying Missing Persons**

1. The onscene supervisor and investigating officer will evaluate the circumstances and use the 311EQ, Missing Persons High Risk Assessment Questionnaire, to classify the missing person as one of the following:
 - a. Juveniles Classifications
 - 1) Missing Juvenile
 - a) A person less than 18 years of age
 - b) Reported missing by an adult

 - c) Through credible information, it has been determined the juvenile has left the care, custody and control of the reporting adult.
 - 3) Missing Juvenile AMBER Alert
 - a) There is a reasonable belief by law enforcement that abduction has occurred.

- b) Law enforcement believes that the child is in imminent danger of serious bodily injury or death.
 - c) There is enough descriptive information about the victim and the abduction for law enforcement to issue an AMBER Alert to assist in the recovery of the child.
 - d) The abduction is of a child 17 years or younger.
 - e) The child's name and other critical data elements, including the Child Abduction flag, have been entered into the National Crime Information Center (NCIC) system.
- b. Adult Classifications
- 1) Endangered Missing Adult
 - a) A person 18 years of age or older
 - b) A possible victim of foul play
 - c) In poor mental condition
 - 1] Likely to do harm to self or others
 - 2] Disoriented or unable to respond to simple questions regarding personal information, i.e., name, date, or place.
 - d) In poor physical condition
 - 1] Physical impairment(s) which severely limits self-care
 - 2] Dependent on life sustaining medication

 - b) Law enforcement has confirmed the individual is missing.
 - c) The disappearance of the individual poses a credible threat of immediate danger of serious bodily harm or death to the individual.
 - d) There is sufficient descriptive information about the individual and the circumstances surrounding their disappearance to indicate that the activation of the alert will help locate the individual.

B. Who May Report a Missing Person

1. Any responsible adult with accurate information may report someone missing. This includes nursing home or hospital representatives who are in charge of caring for the missing person.
 - a. Missing residents of Summit Behavioral Healthcare (SBH) are investigated by the Ohio State Highway Patrol (OSHP). However, when requested, Department personnel will assist OSHP.

C. Reporting a Missing Person

1. A person must be reported missing from their residential address, not the address where the missing was last seen.
 - a. The missing's district of residence, not the district where the missing was last seen, is responsible for completing the RMS Missing Person Report and follow-up investigation.
 - 1) If a complainant responds to another district, that district will complete the report and:
 - a) Notify a supervisor in the missing's district of residence.
 - b) Immediately send a blotter notification to the missing's district of residence. Include the RMS case number, missing's name, last known location, and date and time missing was last seen.
2. Reporting a Missing Juvenile and a Missing Adult 18, 19 or 20 years of age
 - a. A RMS Missing Person Report will be filed immediately.
 - b. Federal law requires entry of missing juveniles and missing adults 18 years of age but less than 21, into the Law-Enforcement Automated Data System/National Crime Information Center (LEADS/NCIC) computer files within two hours from the time the original call is received (Title 42 USC 5779 and 5780).
 - c. The investigating officer will fill out the RMS Missing Person Report completely with all pertinent information (name, DOB, SSN, place of birth, medical conditions/diagnosis, medications they may be on or don't have with them, any vehicle information, etc.). This information should be gathered at the scene as it is pertinent to the entry of the missing person into the system by the Emergency Communications Center (ECC). The officer will have it checked by a supervisor and immediately notify the ECC. Include the RMS case number, missing juvenile's/adult's name, last known location, and date and time the missing was last seen.
3. Reporting a Missing Adult 21 years of age or older
 - a. Entry guidelines

- 1) If foul play is suspected, the information will be entered into NCIC within 7 days.
 - 2) If no foul play is suspected and the missing person has not returned, the information will be entered into NCIC within 30 days.
 - 3) If no foul play was indicated initially, but evidence of such becomes known before the end of the 7 day period, the information will be entered into NCIC before the end of the 7 day period.
 - 4) If no foul play was indicated initially, but evidence of such becomes known after the 7 day period, the information will be entered into NCIC within 48 hours.
4. Reporting a Missing Nonresident of Cincinnati, whose location is unknown
- a. If the missing visitor does not meet the criteria of a Missing Juvenile, AMBER Alert, Missing Endangered, or Senior Alert, refer the reporting person to the police agency of the missing person's residence.
 - 1) This does not preclude the officer from initiating an "Attempt to Locate" broadcast if necessary.
 - b. If the missing person fits the criteria for an Endangered Missing Adult, Amber Alert, or Senior Alert, follow Section F and notify the police agency where the missing person resides.
 - c. If the agency where the missing person resides refuses to make the report, the district where the missing person was last seen will make the report and conduct the investigation.
- D. Investigations of Missing Persons and Case Assignment

 - a. Prior to completing a RMS Missing Person Report, conduct a preliminary investigation in an attempt to locate the missing person. Use Form 311EQ and Form 311EL, ESME Officer Check-Off List.
 - b. Report missing persons to ECC as soon as an adequate description is available for a radio broadcast.
 - c. Complete a RMS Missing Person Report for all missing persons.
 - d. Submit the missing information to Teletype, who will send a teletype message and provide a teletype number. Include the RMS case number, missing's name, last known location, and date and time the missing was last seen for entry into LEADS/NCIC by ECC, if necessary.

- e. Obtain a picture of the missing person, if available.

 - k. Continue the investigation until the conclusion of his/her shift.
3. The investigating officer will notify their on-duty supervisor if the investigating officer's shift ends without the missing person being located.
 4. The on-duty supervisor will forward the ESME case jacket the next shift supervisor who will:
 - a. Reassign the case to another officer. If the next shift has a district investigator, the missing person case will be reassigned to the investigative unit.
 - b. Brief the next investigating officer or district investigator on the progress of the investigation.
 5. Once the case reaches the district investigative unit, a district investigator will follow up on the missing person case, completing the case file with updated information and case progress. The district investigator will notify ECC if a missing entry into LEADS/NCIC is necessary. See Section C.3.

6. If after 7 days the missing person is not located, the district investigator assigned the missing person case will submit the missing person case file to the investigative supervisor. The investigative supervisor will confirm the person is still missing and, upon review and approval of the case file, will forward the case file to the Personal Crimes Squad (PCS).
 - a. PCS is responsible for follow-up investigation after the 7 day district investigation. PCS will notify ECC if a missing entry into LEADS/NCIC is necessary.
 7. PCS supervisors will review the missing person case jacket for accuracy and completeness.
