Board of Trustees  
Cincinnati Retirement System  
801 Plum Street, Suite 328  
Cincinnati, Ohio 45202

Dear Members of the Board:

As requested, we have performed an actuarial valuation of the post-employment benefits provided by the Retirement System for Employees of the City of Cincinnati (CRS) as of December 31, 2023. The following report contains our findings and disclosures required by the Governmental Accounting Standards Board (GASB) standards. Valuation results shown for valuations prior to 2018 were derived from the prior actuary's report.

The purpose of this report is to present the annual actuarial valuation of the City of Cincinnati Postemployment Benefit Plan. This report is for the use of the City and its auditors in preparing financial reports in accordance with applicable law and accounting requirements. Any other user of this report is not an intended user and is considered a third party.

The results of this valuation rely on future plan experience conforming to the underlying assumptions and methods outlined in this report. Future results may differ significantly from the current results presented in this report due to such factors as the following: Plan experience differing from that anticipated by the assumptions, changes in assumptions, and changes in plan provisions or applicable law. Actuarial computations are calculated based on our understanding of GASB 74/75 and are for purposes of fulfilling employer funding requirements. Determinations for purposes other than meeting employer funding requirements may be significantly different from the results in this report. Additional accounting disclosures for the fiscal year ending June 30, 2024 related to GASB Statements 74 and 75 will be provided in a separate report.

Appendix A describes the Participant Data. Appendix B outlines Assumptions and Methods used in calculating the figures throughout the report. Appendix C contains our understanding of the substantive plan provisions based on the information provided by the City.

In preparing our report, we relied without audit, on information (some oral and some written) supplied by Plan Administrators. This information includes, but is not limited to, the Plan provisions, employee data, and financial information. The demographic assumptions used in this report were based on the City's actuary's experience study adopted March 23, 2023. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

Board of Trustees

April 29, 2024

Page ii

This actuarial valuation reflects a full valuation in which claims, premiums, trends, and census data were updated..

The claim costs and trend assumptions reflect the Inflation Reduction Act of 2022 (the Act) including associated regulations and market responses to date. As the regulations and market responses evolve, the impact on future costs could vary significantly from those assumed in this valuation. This report does not reflect any additional modifications to the Part D program communicated by the Centers for Medicare & Medicaid Services (CMS) in their Ratebook Announcement published on April 1, 2024.

This report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board as well as applicable laws and regulations. Furthermore, as credentialed actuaries, we collectively meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys, and our firm does not provide any legal services or advice.

This actuarial valuation report was prepared for the City of Cincinnati for the purposes described herein and for the use by the Plan Auditor in completing an audit related to the matters herein. Other users of this report are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to such other users.

Sincerely,

Cheiron

Gaelle Gravot, FSA, MAAA  
Principal Consulting Actuary

Elisabeth Mercer, FSA, EA, MAAA  
Consulting Actuary

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION I – VALUATION SUMMARY**

The City of Cincinnati has engaged Cheiron to provide an analysis of its post-employment benefit liabilities as of December 31, 2023. The primary purposes of performing this actuarial valuation are to:

- Estimate the Actuarially Determined Contribution (ADC) and the Actuarial Liability (AL) of the retiree health benefits using GASB 74 and 75 methodology,
- Provide disclosures for financial statements, and
- Provide projections for the ADC, Net OPEB Liability (NOL), and Actuarial Liabilities.

We have determined costs, liabilities, and trends for the substantive plan using actuarial assumptions and methods that we consider reasonable.

### **GASB’s OPEB Requirements**

GASB’s Statement 74 refers to the financial reporting for post-employment benefit plans other than pension plans, and Statement 75 refers to the employer accounting for these plans. Statement 74 is generally applicable where an entity has a separate trust or fund for OPEB benefits. We understand that the City of Cincinnati has a trust used to fund future OPEB obligations.

Statement 75 requires the employer to book the actuarial cost (net of employee, retiree, and their dependents’ contributions) of the Plan as an expense on its financial statements. Additional disclosures required by GASB 74 and 75 include a description of the substantive plan, summary of significant accounting policies (which we have not included in this report), contributions, and a statement of funding progress, along with the methods and assumptions used for these disclosures.

The GASB 74 and 75 valuation sections are provided in a separate report.

### **Funding Policy**

For the purpose of this valuation, the ADC is calculated as the normal cost determined under the Entry Age Normal actuarial cost method, plus an open 30-year, level dollar amortization of the Unfunded Actuarial Liability, plus 0.25% of total payroll for administrative expenses. This report determines the ADC for the FYE June 30, 2025.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION I – VALUATION SUMMARY**

Table I-1 below summarizes the December 31, 2023 and December 31, 2022 actuarial valuation results.

<b>Table I-1 Summary of Valuation Results</b>		
<b>Valuation Date</b>	<b>December 31, 2022</b>	<b>December 31, 2023</b>
Discount Rate	7.50%	7.50%
Actuarial Liability (AL)	\$ 363,450,123	\$ 393,177,787
Actuarial Value of Assets	532,169,108	549,871,265
<b>Unfunded actuarial liability (UAL)</b>	<b>\$ (168,718,985)</b>	<b>\$ (156,693,478)</b>
Funded Ratio (AVA/AL)	146.42%	139.85%
Market Value of Assets	\$ 500,041,000	\$ 533,879,000
Funded Ratio (MVA/AL)	137.58%	135.79%
<b>Fiscal Year Ending</b>	<b>June 30, 2024</b>	<b>June 30, 2025</b>
Actuarially Determined Contribution	\$ 0	\$ 0
<b>Calendar Year</b>	<b>2023</b>	<b>2024</b>
Actual/Expected Net Benefit Payments	23,356,000	27,097,862

The Actuarial Liability increased from \$363.5 million to \$393.2 million this year. In addition to the expected increase in liability of \$0.2 million due to normal cost, benefit payments, and interest, the Plan experienced other changes in liability attributable to a (\$1.9) million decrease due to the population changes. The Plan experienced liability losses, increasing the liability by \$31.5 million due to changes in healthcare premiums, trends and claims. The combination of these changes resulted in a \$29.5 increase in liability. There were no changes in benefit plans since the prior valuation.

During the year ending December 31, 2023, the Plan's assets gained \$21.1 million on a market value basis. The return on market asset value was 11.83%, compared to the assumed return of 7.50%. The Plan's asset smoothing technique recognizes only a portion of the gains and losses for each year, and the return on the actuarial asset value was 8.00%. This return was above the assumed rate of return of 7.50% and resulted in an actuarial gain on investments for the Plan.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION I – VALUATION SUMMARY**

**Historical Trends**

This chart shows the historical trend of assets and the Actuarial Liability for the City’s OPEB Plan. The historical Actuarial Liabilities shown below are based on the funding valuation report for the Plan and not the Actuarial Liabilities developed under GASB 74/75. Cheiron performed valuations starting with 2018.

The grey bars represent the Actuarial Liability used to determine the Actuarially Determined Contribution (ADC). The liabilities prior to 2018 were based on actuarial reports produced by the prior actuary. In 2016, the Plan was closed to members hired after December 31, 2015. In 2019, the Plan adopted a fully insured Medicare Advantage Plan as of January 1, 2020, dropping the liability by \$127 million. In 2021, the liability decreased again due to favorable claims experience. In 2023, the liability increased due to the Inflation Reduction Act of 2022 induced regulatory changes impacting the Part D (pharmacy) coverage provided to Medicare Eligible Retirees.

The Market Value of Assets is represented by the dark blue dotted line and the Actuarial Value of Assets is represented by the green solid line. The Actuarial Value of Assets (AVA) is developed by smoothing five years of investment returns, as seen on page 5. The percentages above the bars represent the funded ratio based on the AVA. The funded percentage decreased to 140% as of December 31, 2023.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION II – ASSETS**

**Assets**

The Plan’s last valuation of liabilities was performed as of December 31, 2022. Table II-1 below shows the reconciliation of assets for the current and prior fiscal years. This section reconciles the assets of December 31, 2023 that were used to develop the FYE 2025 ADC.

<b>Table II-1 Changes in Market Value of Assets</b>		
	December 31, 2022	December 31, 2023
<b>Market Value of Assets - as of beginning of Fiscal Year</b>	<b>\$573,939,000</b>	<b>\$500,041,000</b>
<b><u>Additions</u></b>		
Employer Contributions	\$ 0	\$ 0

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION II – ASSETS**

**Actuarial Value of Assets**

The Actuarial Value of Assets is the current market value, adjusted by a five-year smoothing of gains and losses on a market value basis. Each year's gain or loss is determined as the difference between the actual market return and the expected market return using the assumed rate of investment return. The actuarial value is adjusted to remain within 20% of the market value. Table II-2 below illustrates the calculation of the market value gains and losses.

<b>Table II-2 Development of Unrecognized Gain/(Loss) on Investments as of December 31, FYE</b>					
	Fiscal Year Ending 12/31/2019	Fiscal Year Ending* 12/31/2020	Fiscal Year Ending 12/31/2021	Fiscal Year Ending 12/31/2022	Fiscal Year Ending 12/31/2023
<b>1. Market Value of Assets as of December 31, Beginning of Fiscal Year</b>	<b>\$ 457,249,000</b>	<b>\$ 500,122,000</b>	<b>\$ 511,980,000</b>	<b>\$ 573,939,000</b>	<b>\$ 500,041,000</b>
<b>Fiscal Year Cash Flow</b>					
2. Employer Contributions for the Plan Year Ending December 31, FYE	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0
3. Participant Contributions for the Plan Year Ending December 31, FYE	0	0	0	0	0
4. Benefit Payments through December 31, FYE	(29,253,000)	(26,731,000)	(27,525,000)	(24,670,000)	(23,356,000)
5. Administrative Expenses through December 31, FYE	(440,000)	(478,000)	(466,000)	(581,000)	(538,000)

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION III – VALUATION RESULTS**

This section of the report calculates the current and expected future contribution requirements under the City’s funding policy. This valuation calculates the contribution for the fiscal year 2024-25.

The liabilities presented in this section are based on the assumption of an ongoing plan and would not be appropriate for measuring the settlement value of Plan obligations.

Information about the Actuarial Liabilities of the Plan as of December 31, 2023 and December 31, 2022 is shown in Table III-1 below.

<b>Table III-1 Actuarial Liability</b>		
<b>Valuation Date</b>	<b>December 31, 2022</b>	<b>December 31, 2023</b>
Discount Rate	7.50%	7.50%
<b>Actuarial Liability</b>		
Current active members	\$ 102,663,410	\$ 103,947,939
Current retirees, beneficiaries, and dependents	<u>260,786,713</u>	<u>289,229,848</u>
<b>Total Actuarial Liability (AL)</b>	<b>\$ 363,450,123</b>	<b>\$ 393,177,787</b>
Actuarial Value of Assets (AVA)	<u>532,169,108</u>	<u>549,871,265</u>
<b>Unfunded Actuarial Liability (UAL)</b>	<b>\$ (168,718,985)</b>	<b>\$ (156,693,478)</b>
Funded Ratio (AVA/AL)	146.42%	139.85%
Market Value of Assets (MVA)	\$ 500,041,000	\$ 533,879,000
<b>Unfunded Actuarial Liability (UAL)</b>	<b>\$ (136,590,877)</b>	<b>\$ (140,701,213)</b>
Funded Ratio (MVA/AL)	137.58%	135.79%
<b>Normal Cost</b>	<b>\$ 2,562,945</b>	<b>\$ 2,542,224</b>

Starting June 30, 2017, the City’s GASB reporting requirements fall under GASB 74 and 75, and the Unfunded Liability is booked on the balance sheet. The above liability is shown for funding purposes only; the GASB 74 and 75 liability will be a roll-forward of this liability to the fiscal year ending June 30, 2024 and will be provided in a separate report.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION III – VALUATION RESULTS**

Table III-2 below shows the Actuarial Liability(AL) for actives and retirees, the normal cost, the Actuarial Asset Value, and the resulting Unfunded Actuarial Liability (UAL) as of December 31, 2023 and December 31, 2022 at a 7.5% discount rate. Note that this development of the AL and UAL are based on the measurement date of December 31, 2023, and will be used in the determination of the Actuarially Determined Contribution for the 2024-25 fiscal year.

<b>Table III-2</b>		
<b>Actuarial Liability, Normal Cost &amp; Actuarial Asset Value as of</b>		
	<b>December 31, 2022</b>	<b>December 31, 2023</b>
<b>Actuarial Liability</b>		
Active Liability		
-Active Employees	\$ 79,124,005	\$ 82,136,249

<b>Unfunded Actuarial Liability (UAL)</b>	<b>\$ (168,718,985)</b>	<b>\$ (156,693,478)</b>
<b>Normal Cost</b>	<b>\$ 2,562,945</b>	<b>\$ 2,542,224</b>

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION III – VALUATION RESULTS**

**Reconciliation**

Table III-3 provides an estimate of the major factors contributing to the change in liability since the last Actuarial Valuation Report (AVR).

<b>Table III-3 Reconciliation of Actuarial Liability</b>		
<b>Actuarial Liability at December 31, 2022</b>	<b>\$</b>	<b>363,450,123</b>
Normal Cost		2,562,945
Expected Benefits paid throughout the year		(28,714,315)
Interest		26,374,193
Expected Actuarial Liability at December 31, 2023	<b>\$</b>	<b>363,672,946</b>
<b>Actuarial Liability at December 31, 2023</b>		<b>393,177,787</b>
Gain or (Loss)	<b>\$</b>	<b>(29,504,841)</b>
Gain or (Loss) due to:		
Benefit changes	<b>\$</b>	-
Census changes		1,945,421
Demographic Assumption changes		-
Health Care Claims and Trend changes		(31,450,262)
Total changes	<b>\$</b>	<b>(29,504,841)</b>

Below is a brief description of each of the above components:

- *Benefits Changes* refers to changes in the Plan or eligibilities. There were no benefit changes since the prior valuation.
- *Census Changes* refers to differences in the valuation census due to members terminating, retiring, dying, and becoming disabled at rates different than expected.
- *Demographic Assumption Changes* refer to the changes in demographic assumptions. There were no demographic assumption changes this year.
- *Healthcare Claims and Trend Changes* refer to the change in projected healthcare cost vs. actual healthcare cost redeveloped at December 31, 2023. In addition, the trends were updated to reflect the current market place and expected impact of the Inflation Reduction Act.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION III – VALUATION RESULTS**

**Actuarially Determined Contribution (ADC)**

The ADC consists of three parts: (1) the *normal cost*, which represents the annual cost attributable to service earned in a given year, (2) the assumed administrative expense, and (3) the amortization of the UAL. In Table III-4 below, we show the computed FYE 2024 and FYE 2025 ADC based on a 7.5% assumed discount rate (based on a long-term view of returns on the asset allocation).

<b>Table III-4</b>				
<b>Calculation of Actuarially Determined Contribution (ADC)</b>				
<b>For Fiscal Year Ending</b>	<b>6/30/2024</b>		<b>6/30/2025</b>	
Normal Cost	\$	2,563,000	\$	2,542,000
Administrative Expenses <sup>1</sup>		548,000		589,000
Amortization of UAL		<u>(13,778,000)</u>		<u>(12,796,000)</u>
<b>Total ADC (not less than \$0)</b>	<b>\$</b>	<b>0</b>	<b>\$</b>	<b>0</b>
<b>Calendar Year</b>	<b>2023</b>		<b>2024</b>	
Covered Payroll	\$	136,460,218	\$	136,226,593
ADC as a percentage of pay		0.00%		0.00%
Total Compensation	\$	219,049,414	\$	235,731,737
ADC as a percentage of compensation		0.00%		0.00%
Actual/Expected Net Benefit Payments	\$	23,356,000	\$	27,097,862

<sup>1</sup> Administrative Expense of 0.25% of total compensation.

**SECTION III – VALUATION RESULTS**

**Projected Cash Flow**

The following table presents a 30-year payout projection of employer payments for the City’s OPEB Plan. Market Value of Assets are assumed to earn 7.50% returns.

Table III-5 Projected Cash Flow Assuming 7.5% Discount Rate					
Fiscal Year Ending December 31,	Expected Market Value Assets	Expected Employer Benefit Payments	Expected Actuarial Liability	Fiscal Year Ending June 30,	Expected Actuarial Determined Contribution
2024	\$ 545,824,000	\$ 27,098,000	\$ 396,506,000	2024	\$ 0
2025	555,855,000	29,809,000	399,168,000	2025	0

POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION III – VALUATION RESULTS**

**Future Outlook**

Base Line Projections

The two graphs on this page show the expected progress of the Plan over the next 15 years assuming the Plan’s assets earn 7.50% on their market value and that all other assumptions are met. The graph titled “Assets and Liabilities” shows the projected funded status over the next 15 years. The Plan is projected to be in a surplus position. The graph titled “Plan Expense and Funding” shows the expected net benefit stream as well as the expected expense for GASB 75, if all assumptions are met. The Plan’s expected net benefit payments are relatively stable over the entire period.

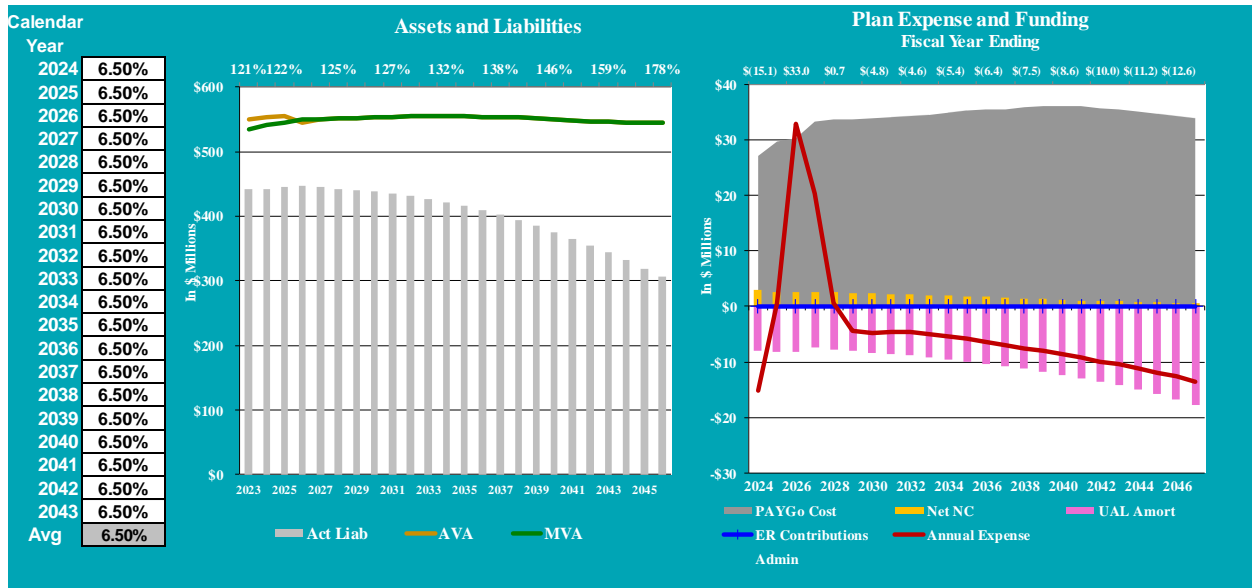

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION III – VALUATION RESULTS**

6.5% Return Projections

The two graphs on this page show the expected progress of the Plan over the next 15 years assuming the Plan’s assets earn 6.50% on their market value and a discount rate of 6.50% assuming all other assumptions are met. The graph titled “Assets and Liabilities” shows the projected funded status over the next 15 years. The Plan is projected to be in a less surplus position than the 7.50% projections. The projection of the Plan’s funded status is highly driven by the investment returns. The graph titled “Plan Expense and Funding” shows the expected net benefit stream as well as the expected expense for GASB 75, if all other assumptions are met. The Plan’s expected net benefit payments are relatively stable over the entire period.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION IV – SENSITIVITY OF RESULTS**

The liabilities produced in this report are sensitive to the assumptions used. Table IV-1 shows liabilities under the actuarial funding scenario using a 1% increase and a decrease in healthcare trend rates to provide some measure of sensitivity. In all cases, we are using the full actuarial funding assumption of 7.50% for the discount rate.

<b>Table IV-1 Health Care Trend Rate Sensitivity</b>			
<b>Health Care Trend Rates</b>	<b>-1%</b>	<b>Base</b>	<b>+1%</b>
<b>Actuarial Liability</b>			
Current active members	\$ 88,357,544	\$ 103,947,939	\$ 123,341,977
Current retirees, beneficiaries, and dependents	<u>265,464,769</u>	<u>289,229,848</u>	<u>316,443,477</u>
Total Actuarial Liability (AL)	\$ 353,822,313	\$ 393,177,787	\$ 439,785,454

POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**SECTION V – FINANCIAL STATEMENT DISCLOSURES**

The Government Finance Officers Association (GFOA) maintains a checklist of items to be included in the Annual Comprehensive Financial Report (ACFR) in order to receive recognition for excellence in financial reporting. In accordance with those statements, we have prepared the following disclosures.

**Schedule of Funding Progress**

The schedule of funding progress compares the assets used for funding purposes to the comparable liabilities to determine how well the Plan is funded and how this status has changed over the past several years. The Actuarial Liability is compared to the Actuarial Value of Assets to determine the funding ratio. The Actuarial Liability under GASB is determined assuming that the Plan is ongoing and participants continue to terminate employment, retire, etc., in accordance with the actuarial assumptions.

Years prior to 2018 were taken from the prior actuary’s report.

Table V-1 Schedule of Funding Progress for Fiscal Year Ending December 31, (\$ in Thousands)						
Valuation Year	Actuarial Asset Value (a)	Actuarial Liability (b)	Unfunded Actuarial Liability (c)=(b-a)	Funded Ratio (d)=(a)/(b)	Covered Payroll* (e)	UAL as a Percentage of Covered Payroll (f) = (c)/(e)
2013	674,709	618,508	(56,201)	109.1%	163,477	(34)%
2014	706,959	590,902	(116,057)	119.6%	164,575	(71)%
2015	474,746	484,833	10,087	97.9%	174,963	6%
2016	485,845	450,026	(35,819)	108.0%	168,785	(21)%
2017	497,233	496,188	(1,045)	100.2%	172,156	(1)%
2018	490,887	504,757	13,870	97.3%	168,420	8%
2019	488,000	376,561	(111,439)	129.6%	164,684	(68)%
2020	502,358	397,836	(104,522)	126.3%	140,671	(74)%
2021	525,774	362,353	(163,420)	145.1%	139,124	(117)%
2022	532,169	363,450	(168,719)	146.4%	136,460	(124)%
2023	549,871	393,178	(156,693)	139.9%	136,227	(115)%

\* Covered payroll represents the payroll of those members eligible for postretirement healthcare benefits. The Plan was closed December 31, 2015.

ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX A – MEMBERSHIP INFORMATION**

The census data used to develop the Actuarial Liability (AL) as of December 31, 2023 and December 31, 2022 was provided by the Cincinnati Retirement System staff.

Group	December 31, 2022	December 31, 2023
<b>Active Participants</b>		
Active Full Time Employees	1,593	1,514
Active Part Time Employees	163	135
Active DROP Employees	<u>157</u>	<u>141</u>
Total	1,913	1,790
Covered Payroll	\$136,460,218	\$136,226,593
Total Compensation	\$219,049,414	\$235,731,737
Active Full Time Employees - ineligible for retiree health benefits	1,361	1,526
Active Part Time Employees - ineligible for retiree health benefits	<u>436</u>	<u>630</u>
Total - ineligible for retiree health benefits	1,797	2,156
<b>Inactive Participants</b>		
Number of retirees and surviving spouses currently receiving retiree health benefits	3,409	3,330
Spouses currently receiving retiree health benefits	<u>1,353</u>	<u>1,298</u>
Total	4,762	4,628
Retired members and surviving spouses not currently receiving retiree health benefits but may elect coverage in the future	<u>354</u>	<u>328</u>
Total	5,116	4,956
Terminated vested members eligible for retiree health benefits	18	19
Terminated vested members not eligible for retiree health benefits	<u>257</u>	<u>261</u>
Total	5,391	5,236

Note: In addition, there are 7,288 inactive participants hired before December 31, 2015 who are former employees with an employee account balance in the pension plan, but are assumed not to be vested. No retiree health benefit liability is assumed for these individuals.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**Rationale for Demographic and Economic Assumptions**

The assumptions for this valuation were selected based on recent experience and expectations for the future. The current year’s assumptions were detailed in the Cheiron’s pension experience study adopted March 23, 2023. We have reviewed the reports and letters of our pension colleagues and believe the assumptions to be reasonable. The 7.50% discount rate used for valuation purposes as of December 31, 2023, is prescribed under paragraph 29 of the CSA. The actuarial cost method, the asset valuation method, and the amortization method used for funding purposes were selected by CRS during prior periods.

**Economic Assumptions**

- 1. Discount Rate** 7.50% per year
- 2. Expected Return on Assets** 7.50% per year, net of investment expenses
- 3. Administrative Expenses** 0.25% of total payroll
- 4. Inflation Assumption** CPI: 2.75% per year  
Medical CPI: 3.25% per year
- 5. Salary Increase Rate** Salary increases are assumed to vary by service.  
Representative rates are shown as follows:

Service	Annual Increase
0	8.75%
5	6.25
10	4.75
15	4.25
21+	3.75

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**6. Per Person Health Care Cost Trends**

Annual per capita health care claims costs are expected to increase in future years as a result of medical inflation, utilization, demographic changes, leverage in the plan design, and improvements in technology adjusted for any implicit and/or explicit cost containment features. Initial health care cost trend rates were selected based on an analysis of national average health trend surveys specific to similarly structured plans for both Non-Medicare Eligible and Medicare-Eligible participants. The trend assumption reflects the expected impact of the Inflation Reduction Act. The assumed rates of increases in expected retiree health care claims costs and contributions vary by year, retiree health plan, and payment age, as shown in the table below:

Trends for current actives, Non-Medicare Retirees, and Part A only Medicare Retirees:

Calendar Year	All Plans Payment Age < 65	Non-Model Plans Payment Age 65+	Model Plans Payment Age 65+
2023	8.40%	3.77%	3.69%

POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**2. Rates of Withdrawal**

Withdrawal rates for each group vary by service with the City. Sample rates are shown in the tables below.

Annual Rate of Withdrawal	
Years of Service	Rate of Withdrawal
<1	15.00%
1	10.00
2	8.00
3	7.00
4	6.50
5	6.00
6	5.00
7	4.00
8	3.00
9-14	2.50
15+	2.00

**3. Rates of Disability**

Disability rates for each group vary by age. Sample rates are shown in the table below.

Age	Annual Rate of Disability*
20	0.0025%
25	0.0050
30	0.0075
35	0.0125
40	0.0225
45	0.0375
50	0.0675
55	0.1050
60	0.1250
65	0.1250

\* Rates are 0% when a member is eligible for normal retirement.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**4. Rates of Mortality**

*Preretirement Mortality:* PUB-2010 General Employees Amount-weighted Mortality table with fully generational projected mortality improvements using MP-2021.

*Postretirement Mortality:* PUB-2010 General Retirees Amount-weighted Mortality table with fully generational projected mortality improvements using MP-2021.

*Disabled Mortality:* PUB-2010 General Disabled Retirees Amount-weighted Mortality table with fully generational projected mortality improvements using MP-2021.

**5. DROP Participation**

30% of eligible CSA Employee members eligible for DROP benefits are assumed to decline participation, and 70% are assumed to elect participation. Those electing to participate are assumed to remain in the DROP for three years.

**6. Vested Withdrawal**

60% of vested members who terminate elect to leave their contributions in the Plan in order to be eligible for a benefit at their normal retirement date, while the remaining 40% elect to withdraw their contributions.

**7. Spousal Coverage**

Actual census data, payment form elections, and current health care plan elections for spouses of current retirees were used. For spouses of eligible future retirees, a 100% spouse coverage election rate is assumed for those members choosing a joint & survivor payment form, and a 15% spouse coverage election rate is assumed for those members selecting a single-life annuity payment form. Under a joint & survivor payment form, retiree health benefits are available until the death of the last annuitant.

**8. Dependent Age**

For current retirees, the actual spouse date of birth was used when available. For future retirees, husbands are assumed to be three years older than wives.

**9. Health Plan Administrative Expenses**

Health plan administrative expenses are included in the per capita claims costs.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**10. Percent of Members Electing Coverage**

Actual census data and current Plan elections provided by CRS were used for those currently receiving retiree health benefits. Group 1 members who retired prior to September 1, 2007, and currently qualify for the Secure Plan, are assumed to re-qualify in all future years. All current participants not qualifying for the Secure Plan are covered either by the Select Plan or the Model Plan. Current participants are assumed to maintain their current retiree health benefits coverage until they are no longer eligible. The active members of Group C with at least 15 years of creditable service shall be entitled to retiree health benefits under the Select Plan as Group 1 members. All other eligible future retirees electing retiree health benefits are assumed to be covered by the Model Plan. 95% of eligible future retirees in Group 1 are assumed to elect retiree health benefits. Eligible future retirees in Group 2 are required to pay the portion of their cost as determined by the point system, so retiree health benefit election rates are assumed to reduce as the level of cost-sharing increases. The point system is based upon the sum of the member’s full years of service and the member’s age at separation from service. The assumed contribution rates and rates of participation for Group 1 and Group 2 members are as follows:

Group	Pre-65 Retirement	Post-64 Retirement	Select Plan	Model Plan
Group 1	95%	95%	5%	10%
Group 2 with 90+ Points	90% grading to 70% over 20 years	75%	5%	10%
Group 2 with 80 – 89 Points	90% grading to 70% over 20 years	75%	25%	25%
Group 2 with 70 – 79 Points	50% grading to 25% over 20 years	25%	50%	50%

Note these assumptions are based on our 2022 analysis of election percentage.

It is assumed that 100% of eligible future disabled retirees will elect retiree health benefits.

**11. Percent Electing Medical Expense Reimbursement Program (MERP)**

Based upon current participation in the MERP, 0% of current and future retiree health benefits participants are assumed to elect the MERP. As credible experience for MERP participation is not yet available, the assumed rate of participation is an estimate and actual results may be materially different. As such, this assumption will need to be reviewed as credible experience evolves.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**12. New Retiree Listing**

Members who have newly retired but have not been completely processed for benefits were assumed to elected post-retirement medical. For those in Pension Group C, we have assumed they elect the Select Plan while all others elect the Model Plan.

**13. Changes Since the Last Valuation**

There were no changes since the prior valuation.

**Claim and Expense Assumptions**

The claims costs are developed based on claims experience projected to 2024 for the self insured benefits and actual premiums in effect for 2024 for the fully insured ones. Contractual administrative expenses for 2024 are included. The resulting Per Adult Per Month (PAPM) cost is then adjusted using age curves.

**1. Average Annual Claims and Expense Assumptions & Methodology**

The Calendar Year (CY) 2024 claims costs were developed using actual CY 2021 through CY 2023 Medical and Rx claim experience. Claims were divided by benefit type (i.e., medical vs. Rx) and population category (i.e., Non-Medicare Eligible (NME) vs Medicare Eligible (ME)) for each plan, and standardized to the Select Plan design for the 2023 enrollment. Rx claim costs were defined as Plan paid amounts minus pharmacy rebates. Large claims above \$100,000 for Medical were removed from the experience prior to calculating the experience Per Adult Per Month (PAPM) cost.

We calculated the benefit relativity factors of the Select, Model, and Secure Plan using the OptumInsight Comprehensive Pricing Tool for NME and OptumInsight Comprehensive Medicare Coordination Model for ME participants. Using the same model, we calculated the change in demographics between the 2021, 2022 and 2023 enrollments, respectively.

Using the benefit relativity and demographic factors, the experience PAPM costs of each plan and year were adjusted to the Select Plan design for the 2023 population. The adjusted experience PAPM costs were then blended using:

- 30% of CY 2021, 35% of CY 2022 and 35% of CY 2023 experience for Medical NME,
- 30%/35%/35% of CY 2021/2022/2023, respectively, for Rx NME,
- 20%/20%/60% of CY 2021/2022/2023, respectively, for Rx ME, and
- 30%/35%/35% of CY 2021/2022/2023, for Medical ME (Part A only members).

Rates were trended to CY 2024 using an 8% annual trend. Large claims were trended separately assuming a 5% annual trend and added to the projected PAPM costs. To convert paid claims into incurred claims, we applied an extra 2.5 months of trend to medical and ½ month of trend to Rx. The CY 2024 projected Rx cost for ME was further adjusted to reflect the expected receivable payments from CMS (Part D Direct subsidy, Federal Reinsurance, Low Income Cost Share subsidy, Low Income Premium subsidy) and PhrMa

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

(Gap Discount). These receivables were projected using CY 2021, 2022, and 2023 experience with payments through March 2024, adjusted for expected reconciliation payments for CY 2023.

Finally, we applied the benefit relativity factors to the Select projected costs PAPM to derive the Model and Secure projected costs PMPM. The PAPM costs for the ME Part A only population are expressed based on the entire ME population and added to the Medicare Advantage (MA) premium rates.

Claims curves were developed using the resulting projected PAPM claims costs, the premium rates for the fully insured MA plans, and our proprietary age curves. The costs of retirees over 65 who are eligible for Medicare Part A and didn't sign up for Part B are spread across the entire ME population.

No child load was added to the NME pre-65 claims since the associated cost is assumed to be implicitly reflected in the Per Adult Per Month costs.

Expenses were projected for NME vs ME, based on actual CY 2023 expenses provided by CRS, trended to CY 2024 using a 4% trend.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

64	10,791	9,981	12,120	11,177	10,629	9,843
65	\$6,537	\$6,153	\$7,343	\$6,890	\$6,439	\$6,068
70	7,659	6,738	8,631	7,574	7,534	6,635
75	8,573	7,439	9,761	8,439	8,398	7,298
80	9,317	8,102	10,730	9,281	9,084	7,917
85	9,917	8,626	11,533	9,962	9,629	8,400

**2. Retiree Health Care Plan Contributions**

Assumed adult per capita health care contribution rates were developed for those participants in the Select and Model Plans who are required to contribute a portion of retiree health benefit costs as defined in Schedule C. Contributions were determined to fully fund retiree health benefit costs in 2024 based upon Medicare Eligibility status. Rates are based on retiree cost experience, enrollment, and trended based on the assumptions. The following chart details the full (100%) adult per capita contribution assumptions. These amounts include medical, drug, and third-party administrative costs.

Health Plan	Retiree		Spouse	
	Payment Age		Payment Age	
	< 65	Payment Age 65+	< 65	Payment Age 65+
Secure Plan	\$0	\$0	\$0	\$0
Select Plan	\$17,050	\$3,917	\$17,050	\$3,917
Model Plan	\$16,845	\$3,761	\$16,845	\$3,761

As members hired after December 31, 2015 are ineligible to receive retiree health benefits, the contributions assumed for years beyond 2023 are based upon the projected retiree health care costs associated with each projection year’s closed group of participants, reflecting the impact of aging and health care inflation.

**3. Medicare Part D Subsidy**

The City offers an EGWP Part D plan to its Medicare retirees; it, therefore, does not participate in the Retiree Drug Subsidy program.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**4. Medicare Part B Premium Subsidy**

Assumed that Medicare Eligible Retirees pay the Medicare Part B premiums.

**5. Medicare Coverage and Eligibility**

Retiree health benefit participants age 65 and older who are eligible for premium-free Medicare Part A benefits are assumed to be enrolled in Medicare Part A. For those retiree health benefit participants who are not eligible for premium-free Medicare Part A coverage, CRS is assumed to remain the primary payer. For a portion of the Medicare-Eligible group, the premium-free Medicare Part A eligibility status is provided by CRS. As the premium-free Medicare Part A eligibility status is determined from a wide range of sources with varying and, at times, limited content, the premium-free Medicare Part A eligibility status data is incomplete. Adjustments have been made to account for this incompleteness. As the true status of those who are, or will be eligible for premium-free Medicare Part A is uncertain, actual results may be materially different. For all unidentified current retirees, hired prior to April 1, 1986, and not assumed eligible for premium-free Medicare Part A coverage through their spouse, as well as those active employees hired prior to April 1, 1986, 10% are assumed to not qualify for premium-free Medicare Part A coverage. The assumption of 10% is based upon estimates from the current retiree population. 100% of deferred vested members are assumed to obtain the 40 or more quarters of Medicare-covered employment required for premium-free Medicare Part A coverage as a result of their subsequent employment. Retiree health benefit participants age 65 and older are assumed to be enrolled in Medicare Part B.

**6. Marital and Spouse Assumptions**

For participants who are not receiving benefits, 100% of participants are assumed to be married to a spouse of the opposite gender. Husbands are assumed to be three years older than their wives. For participants who are receiving benefits, the actual spouse age is used where available. If relevant spouse information is not available, husbands are assumed to be three years older than their wives.

**7. Part-Time Employees**

On July 1, 1991, the Plan was amended to include part-time employees. Part-time employees hired on or before December 31, 2015, have been included in the valuation.

**8. Geography**

Implicitly assumed to remain the same as current retirees.

**9. Disclosures Regarding Models Used**

**a. Valuation Software**

Cheiron utilizes ProVal, an actuarial valuation software leased from Winklevoss Technologies (WinTech) to calculate the liabilities, normal costs and projected benefit

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

payments. We have relied on WinTech as the developer of ProVal. We have reviewed ProVal and have a basic understanding of it and have used ProVal in accordance with its original intended purpose. We have not identified any material inconsistencies in assumptions or output of ProVal that would affect this actuarial valuation.

**b. Getzen Trend Model**

Medical Trend assumptions were developed using the Society of Actuaries (SOA) Long-Run Medical Cost Trend Model version 2024\_1b. The following assumptions were used as input variables into this model:

Trend Assumption Inputs	
Variable	Rate
Rate of Inflation	2.60%
Rate of Growth in Real Income/GDP per capita 2033+	1.40%
Extra Trend due to Taste/Technology 2033+	0.90%
Expected Health Share of GDP 2033	19.80%
Health Share of GDP Resistance Point	17.70%
Year for Limiting Cost Growth to GDP Growth	2044

The SOA Long-Run Medical Cost Trend Model and its baseline projection are based on an econometric analysis of historical U.S. medical expenditures and the judgments of experts in the field. The long-run baseline projection and input variables have been developed under the guidance of the SOA Project Oversight Group.

The trends selected from 2023 to 2026 were based on market analysis and reflect the expected impact of the Inflation Reduction Act. The expected health share of GDP in 2033 is set to 19.8% of GDP. This assumption is consistent with the trends through 2033 and also with the 2023 Medicare Trustees report projection for 2031. The share of GDP above which cost growth is assumed to meet resistance was set to 17.70% to reflect that the share of GDP for four years pre-pandemic remained at 17.70%. We have reviewed the other baseline assumptions for the model and found them to be reasonable and consistent with the other economic assumptions used in the valuation.

We have relied on the Society of Actuaries as the developer of the Model. We have reviewed the Model and have a basic understanding of the Model and have used the Model in accordance with its original intended purpose. We have not identified any material inconsistencies in assumptions or output of the Model that would affect this report.

**c. OptumInsight Comprehensive Pricing Model**

Cheiron utilized the Optum Comprehensive Benefit Pricing Model [2023, Version 1.03], and the Optum Comprehensive Medicare Coordination Model [CMCM 2023, Version 1.1] which are softwares leased from OptumInsight, to provide manual rates, benefit pricing, and benchmark calculations. For this report, the Models were used to adjust the plan experience for differences in benefits between the Secure, Select and Model Plans.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

We have relied on Optum as the developer of the Models. We have reviewed the Models and have a basic understanding of the Models and have used the Models in accordance with their original intended purpose. We have not identified any material inconsistencies in assumptions or output of the Models that would affect the results of this report.

As part of the review process for this actuarial valuation, we have performed a number of tests to verify that the results of the models are reasonable and appropriate. We have reviewed each model, have a basic understanding of them, and have used them in accordance with their original intended purposes. We are not aware of any material inconsistencies, unreasonable output resulting from the aggregation of assumptions, material limitations, or known weaknesses that would affect this report.

**10. Changes Since the Last Valuation**

The claims curves were updated to reflect the current experience, premiums, and marketplace.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS**

**Methodology**

The Entry Age Normal actuarial cost method is used to determine costs. Under this funding method, a normal cost rate is determined as a level percent of pay for each active Plan member and then summed to produce the total normal cost for the City.

The Actuarial Accrued Liability is that portion of the present value of projected benefits that will not be paid by future employer normal costs or member contributions. It represents the value of the past normal costs with interest to the valuation date. The difference between this liability and funds accumulated as of the same date is referred to as the Unfunded Actuarial Liability.

The portion of the Actuarial Liability in excess of OPEB Trust's assets is amortized to develop additional costs or savings which is added to each year's employer normal cost to produce the Actuarial Defined Contribution (ADC). Under this cost method, actuarial gains and losses are directly reflected in the size of the ADC.

The Unfunded Actuarial Liability is amortized over an open 30-year period. The amortization is a level dollar amortization. CY 2024 claims and expenses were developed as described in Appendix B, Claims and Expenses Assumptions section above.

**Actuarial Value of Assets**

For purposes of determining the contribution rate to the Plan, we use an Actuarial Value of Assets. The asset adjustment method dampens the volatility in asset values that could occur because of fluctuations in market conditions. Use of an asset smoothing method is consistent with the long-term nature of the actuarial valuation process.

The Actuarial Value of Assets is the current market value, adjusted by a five-year smoothing of gains and losses on a market value basis. Each year's gain or loss is determined as the difference between the actual market return and the expected market return using the assumed rate of investment return. The actuarial value is adjusted to remain within 20% of the market value.

POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX C – SUMMARY OF PLAN PROVISIONS**

**Summary of Key Substantive Plan Provisions**

**Pension Benefit Eligibility**

All active employees of the City except for the following:

- Members of the Police and Firemen’s Disability and Pension Fund of Ohio.
- Elected City officials.
- Employees for whom the City contributes to PERS.
- Persons hired as police recruits who are not currently enrolled as a member of the System prior to their date of hire.
- Current contributing members of the School Employees Retirement System (SERS) or the State Teachers Retirement System (STRS) who are hired by the City on a seasonal, temporary, or part-time basis.

Members of the System are divided into the following groups:

Group	Criteria
<b>A, B</b>	Any member who has retired prior to 7/1/2011
<b>C</b>	Any member who, as of June 30, 2011, was an active or deferred vested member and had either: a) Completed at least 30 years of service, or b) Reached age 60 and completed at least 5 years of service.
<b>D</b>	Any active member who, between July 1, 2011 and December 31, 2013: 1) Either a) Completed at least 30 years of service, or b) Reached age 60 and completed at least 5 years of service; and 2) Retired prior to January 1, 2014.
<b>E</b>	Any active member who: 1) Between July 1, 2011 and December 31, 2013, either: a) Completed at least 30 years of service, or b) Reached age 60 and completed at least 5 years of service; and 2) Retires on or after January 1, 2014.
<b>F</b>	Any active member whose most recent membership enrollment date was prior to January 1, 2010 and who is not in groups A through E.  Any deferred vested member whose most recent membership enrollment date was prior to January 1, 2010, is not in groups A through E, and has at least five years of service prior to the date they separate from employment.
<b>G</b>	Any member whose most recent membership enrollment date is on or after January 1, 2010, or  Any member rehired on or after January 1, 2010, who has fewer than 5 years of service as of June 30, 2011, or  Any retiree of the System who is receiving a service retirement allowance and is re-employed on or after April 1, 2013.

POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX C – SUMMARY OF PLAN PROVISIONS**

Members of the System are further classified as:

Class	Criteria
<p><b>CSA Retiree</b></p> <p>(CSA participants corresponding to Retirees Class)</p>	Group A and B members and their designated optionees.
<p><b>CSA Employee</b></p> <p>(CSA participants corresponding to Current Employees Class)</p>	Group C, D, E, and F members (and their designated optionees) that were vested and employed on 7/1/2011.
<p><b>CMC Employee</b></p> <p>(Non-CSA participants)</p>	Group E and F members (and their designated optionees) that were either vested or employed on 7/1/2011 and no break in employment service since 1/1/2010 and prior to becoming vested.
<p><b>Non-CSA</b></p>	Group G members and their designated optionees.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX C – SUMMARY OF PLAN PROVISIONS**

**Years of Service:** Years or fractional years of full-time service rendered to the Plan Sponsor.

**Normal Retirement:**

Groups A, B, C, D, E, and F:

Age 60 with 5 years of service or 30 years of service.

Group G:

Age 67 with 5 years of service or age 62 with 30 years of service.

**Early Retirement:**

Groups A, B, C, D, E, and F:

Age 55 with 25 years of service.

Group G:

Age 57 with 15 years of service.

**Deferred Retirement Option Plan (DROP):**

Current Employees Class members with at least 30 years of service may participate in the DROP.

**Disability Retirement Eligibility:**

5 years of service.

**Deferred Vested Retirement Eligibility:**

5 years of service.

**Retiree Health Benefits Eligibility:**

Per Ordinance 336-2016 adopted by the City Council on October 26, 2016, employees hired after December 31, 2015, are not eligible to receive retiree health benefits.

Group 1: Those members of Group C or those members hired before January 9, 1997. For those members of Group C or those members who retire under the System prior to January 1, 2016 (including their survivors receiving pension benefits), a minimum of 15 years of service is required. For those members who retire under the System after December 31, 2015 (including their survivors receiving pension benefits), a minimum attained age of 60 with 20 years of service or 30 years of service regardless of age is required.

Group 2: Those participants hired on or after January 9, 1997. For those members who retire under the System prior to January 1, 2016 (including their survivors receiving pension benefits), a minimum of 15 years of service is required. For those members who retire under the System after December 31, 2015 (including their survivors receiving pension benefits), a minimum attained age of 60 with 20 years of service or 30 years of service regardless of age is required. Group 2 participants entitled to a deferred retirement allowance are eligible for health benefits upon attainment of the Medicare Eligibility age.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX C – SUMMARY OF PLAN PROVISIONS**

Deferred Retirement Option Plan (DROP): Eligible Current Employees Class members may effectively retire and freeze their accrual of years of service with the System and defer receipt of retirement benefits, including retiree health benefits, for a period not to exceed five years while continuing City employment. For valuation purposes, current DROP participants are assumed to be active members, receiving health care benefits as an active employee. Service does not accrue while participating in the DROP and retiree health benefits are assumed to begin upon exit from active employment.

Members and Beneficiaries Assumed to be Eligible for Deferred Retiree Health Benefits as of December 31, 2016: Per Ordinance 336-2016 adopted by the City Council on October 26, 2016, members of Group C and their associated beneficiaries are eligible for retiree health benefits under the Select Plan based upon a minimum of 15 years of service. All other eligible members and their associated beneficiaries are eligible for retiree health benefits under the Model Plan based upon a minimum attained age of 60 with 20 years of service or 30 years of service regardless of age.

Dependents: A retiree may elect to cover an eligible spouse and/or eligible dependent children by paying the applicable retiree contribution rate for the specified enrollment tier.

**Retiree Health Benefits**

The System offers health care benefits (medical, prescription drugs, dental, and vision coverage) to eligible retirees, beneficiaries, and their dependents before and during Medicare Eligibility.

Under the provisions of Ordinance 85-2011, beginning January 1, 2012, members who retired prior to September 1, 2007, and who establish their annual household income to be less than \$30,000, are eligible to receive medical and prescription drug coverage under the Secure Plan. Those members who retired prior to September 1, 2007, who do not qualify for coverage under the Secure Plan may elect medical and prescription drug coverage through either the Select Plan or Model Plan based upon eligibility.

Those members of Group C or those members who retired on or after September 1, 2007 (including those employees who retired under a special incentive plan in 2007) but prior to January 1, 2016, may elect medical and prescription drug coverage through the Select Plan. Those members not eligible for the Secure Plan or the Select Plan may elect coverage under the Model Plan.

**Active Service Death Benefits**

A surviving spouse, eligible dependent child, and orphan receiving survivor pension benefits as a result of death during employment of an eligible active member is eligible to receive retiree health benefits based upon the eligibility and terms applicable to the associated member.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX C – SUMMARY OF PLAN PROVISIONS**

**Medicare Part B Premium Reimbursement**

Under the provisions of Ordinance 85-2011, beginning January 1, 2012, CRS no longer reimburses the Medicare Part B premiums for retirees and spouses.

**Retiree Contributions**

Participants covered by the Secure Plan do not contribute towards the cost of medical and prescription drug coverage. Group 1 participants covered by the Select Plan contribute an amount equal to five percent of the full cost of medical and prescription drug benefits of the retiree group with costs adjusted based upon the Medicare Eligibility age (age 65). Group 1 participants covered by the Model Plan contribute an amount equal to ten percent of the full cost of medical and prescription drug benefits of the retiree group with costs adjusted based upon the Medicare Eligibility age (age 65). Group 2 participants will pay the portion of the full cost of medical and prescription drug benefits of the coverage option for which they are eligible as determined by the point system.

Retiree Contribution as a Percentage of Cost		
Points	Select Plan	Model Plan
90+	5%	10%
80-89	25%	
70-79	50%	

**Dental Benefits**

Under the provisions of Ordinance 85-2011, beginning January 1, 2012, all members electing to participate in the dental plan will be required to pay the full cost of dental coverage. As such, it is assumed CRS has no liability under GASB 74 and 75 for dental benefits.

**Vision Benefits**

Under the provisions of Ordinance 85-2011, beginning January 1, 2012, all members electing to participate in the vision plan will be required to pay the full cost of vision coverage. As such, it is assumed CRS has no liability under GASB 74 and 75 for vision benefits.

**Changes Since Prior Valuation**

None

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX C – SUMMARY OF PLAN PROVISIONS**

**Summary of 2023 Benefit Plans**

Currently, the City of Cincinnati Postretirement Health Fund offers three plans for retired employees. Benefits are payable under the Plan for medical care obtained from the City’s health care vendors. Medicare Part A eligible retirees who didn’t buy into Part B get the same medical benefits as the Non-Medicare Retirees.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX D – GLOSSARY OF TERMS**

**1. Actuarial Assumptions**

Assumptions as to the occurrence of future events affecting OPEB costs, such as mortality, withdrawal, and retirement; changes in compensation; rates of investment earnings and asset appreciation or depreciation; procedures used to determine the Actuarial Value of Assets; and other relevant items.

**2. Actuarial Cost Method**

A procedure for determining the Actuarial Present Value of OPEB plan benefits and expenses and for developing an allocation of such value to each year of service, usually in the form of a normal cost and an Actuarial Liability.

**3. Actuarially Determined Contribution**

A target or recommended contribution for the reporting period, determined in conformity with Actuarial Standards of Practice based on the most recent measurement available when the contribution for the reporting period was adopted.

**4. Actuarial Gain (Loss)**

A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

**5. Actuarial Liability**

The portion of the Actuarial Present Value of projected benefits will not be paid by future normal costs. It represents the value of the past normal costs with interest to the valuation date.

**6. Actuarial Present Value (Present Value)**

The value as of a given date of a future amount or series of payments, the Actuarial Present Value discounts the payments to the given date at the assumed investment return and includes the probability of the payment being made. As a simple example: assume you owe \$100 to a friend one year from now. Also, assume there is a 1% probability of your friend dying over the next year, in which case you will not be obligated to pay him. If the assumed investment return is 10%, the Actuarial Present Value is:

$$\frac{\text{Amount}}{\$100} \times \frac{\text{Probability of Payment}}{(1 - .01)} \times \frac{1}{(1+.1)} = \frac{\text{Present Value}}{\$90}$$

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX D – GLOSSARY OF TERMS**

**7. Actuarial Valuation Date**

The date as of which an actuarial valuation is performed. This date may be up to 24 months prior to the measurement date and up to 30 months prior to the employer’s reporting date.

**8. Actuarial Value of Assets**

The value of cash, investments, and other property belonging to an OPEB plan as used by the actuary for the purpose of an actuarial valuation. The purpose of an Actuarial Value of Assets is to smooth out fluctuations in market values. This way long-term costs are not distorted by short-term fluctuations in the market.

**9. Amortization Payment**

The portion of the OPEB plan contribution which is designed to pay interest and principal on the Unfunded Actuarial Liability in order to pay for that liability in a given number of years.

**10. Normal Cost**

That portion of the Actuarial Present Value of OPEB plan benefits and expenses which is allocated to a valuation year by the actuarial cost method.

**11. Unfunded Actuarial Liability**

The excess of the Actuarial Liability over the Actuarial Value of Assets.

**12. Funded Percentage**

The ratio of the Actuarial Value of Assets to the Actuarial Liabilities.

**13. Mortality Table**

A set of percentages which estimate the probability of death at a particular point in time. Typically, the rates are annual and based on age and sex.

**14. Discount Rate**

The assumed interest rate used for converting projected dollar-related values to a present value as of the valuation date.

**CITY OF CINCINNATI  
POSTRETIREMENT HEALTH FUND  
ACTUARIAL VALUATION AS OF DECEMBER 31, 2023**

**APPENDIX D – GLOSSARY OF TERMS**

**15. Medical Trend**

The assumed increase in dollar-related values in the future due to the increase in the cost of health care.

**16. Entry Age Actuarial Cost Method**

The actuarial cost method required for GASB 74 and 75 calculations. Under this method, the Actuarial Present Value of the projected benefits of each individual included in an actuarial valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit ages. The portion of this Actuarial Present Value allocated to a valuation year is called the Service Cost. The portion of this Actuarial Present Value not provided for at a valuation date by the actuarial present value of future Service Costs is called the Total OPEB Liability.
