Cynthia Eghbalnia
2651 Burnet Avenue
Cincinnati, OH 45219

Dear Cynthia:

Samples for one location were collected in a resample round of lead analyses for Mt. Washington Elementary School. Greater Cincinnati Water Works (GCWW) analyzed the samples and compared the results.

School Sample Results

The *USEPA 3Ts for Reducing Lead in Drinking Water in Schools: Revised Technical Guidance Document (3Ts Guidelines)* is the process and guidelines used for assisting schools with testing for lead. Results are below.

| SAMPLE	Initial 1st Draw sample Date 11/23/16 Lead, ppb	Changes made by school after initial sampling	1st Draw sample Date 2/2/17 Lead, ppb	30 second flush sample Date 2/2/17 Lead, ppb	60 second flush sample Date 2/2/17 Lead, ppb

Changes made and Next Steps

1. Plumbers checked the line and cleaned the aerator and faucet. This action helped as no lead was detected during the resampling round. No further action is suggested.

Your work and changes in the school continue to improve the water quality for the students and staff. Your decisions and actions throughout this process speak to your care and commitment to ensure students and staff remain safe and healthy while attending your school.

We look forward to our continued partnership with Cincinnati Public Schools. Our resources are available to assist in many ways. Please contact Jim Nelson at 591-6869 if you have any questions.

Sincerely,

Cathy B. Bailey
Director/Greater Cincinnati Water Works
